## ADOPTION OVERVIEW

### Why Adopt?

According to the Humane Society of the United States, “around 2.7 million dogs and cats are euthanized each year in the United States simply because too many people give up their pets, and too few people adopt from shelters.” When individuals adopt pets instead of buying them, not only do they save the life of the pet they adopt, but they also save the life of another animal that can now be rescued. While pet adoption vastly improves the life of the rescued animal, it also enhances the life of the adopter. Rescued dogs and cats bring their new owners unconditional love, loyalty, and happiness. So, are you ready to adopt a new member of your family?

### Our Adoption Mission

- Fully **examine** animals when they arrive and address any evident medical issues
- **Vaccinate** and **medicate** animals
- **Spay** or **neuter** animals before being adopted
- Screen animals for specific temperaments and behaviors to make sure each family finds the right pet for its lifestyle
- **Find loving, caring homes** for animals ready for adoption

### Adoption Donations

Save a Life Pet Rescue’s adoption donations vary according to the type of animal, age, prior donations, and vetting that the animal has received. Our adoption donations are set to allow us to cover our expenses as well as to help other animals in our program that require additional care. Our fees offset vaccination costs, medication expenses, spaying/neutering costs, shelter fees, fuel for transport, food, and additional medical care. We encourage all adopters, if financially able, to donate an amount over the listed adoption donation to help other animals in our program that require unforeseen medical attention.

Puppies under 8 months of age: \$320-\$420

Dogs 8 months of age and older \$120-\$320

**\*Please note that all adoption donations are tax deductible, non-negotiable, and non-refundable 24 hours or more after the adoption.\***
